IBM @server iSeries Custom Technology Center

IBM

Here to help iSeries Customer and Business Partners!!

The iSeries Custom Technology Center (iCTC), an extension of the iSeries Development Laboratory, assists customers and business partners in developing and enhancing iSeries business applications. iCTC experts integrate the latest iSeries technologies with existing applications to help customers leverage their application investments and extend them into new areas such as e-business.

The iCTC helps with all phases of application development - from architecture and design to development and implementation. The iCTC has proven reusable software components available which greatly shorten the development cycle and ensure high quality solutions. Customers and business partners worldwide have worked with the iCTC to deliver core business applications that are optimized for an iSeries environment.

iCTC experts are available and ready to help you. Their skills include:

WebSphere/Java	**Web**	**Architecture/Design**
• Configuration	• WebSphere Commerce Suite	• Systems/Applications
• Servlets, JSP	• WebFacing	• Design Assessment
• EJB	• HTML, CGI, XML	• Performance
• Applets/Applications	• HTTP, Apache, ….	

Database	**Pervasive Computing**	**Domino**
• High Availability	• Wireless Markup Language	• iSeries Performance
• Design & Implementation	• WAP Servers	• LEI/DEC Integration
• Performance	• Transcoding	• Java/WAS Integration
• Data Propagation	• Application Integration	• Web Serving

Porting	**Application Middleware**	**Connectivity**
• Feasibility Studies	• General Purpose Socket Server	• MQ Series
• DB Conversion	• Java File Format Mapper	• TCP/IP & Sockets
• Application Conversion	• Retail Application Interface Offerings	• SNA
	• Many others	• Connect for iSeries

Languages	**Platforms/Environments**	**Tools**
• Java, C, C++	• iSeries & AS400	• All iSeries Tooling
• XML Enablers	• Linux Partition	• WebSphere Studio
• SQL	• Network Station	• VisualAge for Java
• JDBC/ODBC	• Integrated xSeries (IXS)	• Visual Basic
• ILE & OPM (RPG, COBOL, ...)	• UNIX (PASE)
